

BUSINESS OPPORTUNITY

Due to increased demand of our professional Plumbing, Heating and Air Conditioning Services, DMF Plumbing and Heating Solutions now have opportunities for experienced and qualified plumbing & heating professionals to join our successful team.

DMF Plumbing and Heating Solutions are offering the right person an opportunity to become part of an established organisation through the concept of working under a License Agreement as a Licensee operating in your own dedicated territory from Moraira to Mazarron.

DMF Plumbing and Heating Solutions offer a comprehensive Plumbing, Heating, Air Conditioning and Drainage service on the Costa Blanca, covering an area from Moraira to Mazarron. We have been operating for over 20 years in the UK and since 2005 in Spain and are clearly bucking the trend in this difficult economic climate.

We put this success to the investment we've made in extensive advertising, marketing, active membership of Business Networking Groups and our reputation for providing a reliable high quality Service.

So what is a License Agreement?

Essentially we grant you a License to operate under the DMF banner where you benefit from our advertising marketing, website and our established position in the market place.

You'll be working in your own business, but not on your own as full training and support will be readily on hand should you need it. Being a 'one man band' carries certain risks if you're ill or can't cope with work demand, or you just want to take a holiday without losing valuable clients. Whereas being part of a larger organisation reduces the risks associated with running your own Business.

Many qualified tradesmen have the practical experience and qualifications necessary to work in their field, however many haven't the knowledge or experience of running their own business, managing finances, calculating cost estimates, personal tax, cash flow, advertising and marketing etc and unfortunately fail directly as a result of these factors.

For a small fee, we offer you a legally binding License Agreement (5 year contract.)

This means you actually own the business and all your clients, we maintain ownership of the DMF brand name and logo. For all intents and purposes it operates just like a Franchise but without the expensive legal requirements and association with the European Franchise Association.

Most businesses fail in their first year due to the difficulties of a slow start up and becoming established. Working under our License Agreement gives you the opportunity to 'hit the floor running' and become part of an already established company.

So what do you get for your License Fee?

We offer the following:

- Dedicated Territory
- Company Vehicle (sign written)
- Collection of tools
- Free Advertising and Marketing for the first year, after which you make a small contribution to the Company Advertising Budget.
- Use of DMF Plumbing and Heating Solutions Trade Name and Logo
- Goodwill
- Copyright
- Benefit of an established website
- Client information and Leads
- Printed Stationary
- Associate membership of Business Network Group
- Confidential information and know-how
- Support from an established team

If you think you're the right person to join our team and interested in knowing more about these opportunities contact David Furze on 666 907 456
